

# From the "Spinelli Plan" to the Future of Europe

Con il supporto della Rappresentanza in Italia della Commissione europea - Progetto "L'Europa chiama il futuro"

**Date:** 14th February 2022 – 5.30 Pm to 7.00 Pm

*In 1984, the European Parliament adopted the draft of a European Constitution, which could still solve problems the EU faces today: stop national vetoes, the EU court checking member states on the rule of law, health as shared competence... This courageous move 38 years ago is a wake-up call to pro-Europeans while the Conference on the Future of Europe is entering into its decision-making phase. We invite you to hear some of the witnesses explain key features of the 1984 draft treaty. Current MEPs will comment how this can inspire today's decisions.*

## Speakers
