\* to be confirmed

**DRAFT - December 7, 2016**

## *The organiser: The Italian Banking Insurance and Finance Federation*

**The Italian Banking, Insurance and Finance Federation - FeBAF** is the common house of savings and finance in Italy, bringing together the major domestic financial associations. It was established in 2008 by the Banking Association (Abi) and the Association of Insurance Companies (Ania). Assogestioni - the Association of Asset management - joined in 2011 and Aifi - the Association of Private Equity, Venture Capital and Private Debt - in 2013. Assoreti, Assofin, Assofiduciaria, Assoimmobiliare, Assoprevidenza, and Assosim, representing funds and other intermediaries, recently entered the Federation.

The Federation fosters the role of banking, insurance and financial intermediaries, while promoting general interests. A modern and efficient financial sector is an important condition for the advancement and sustainable growth of society and the economy. The Federation aims at presenting in a coherent and systematic way its members' views on economic and social policies, and engaging in a dialogue with institutions, political and monetary authorities, trade associations and public opinion. It promotes business values, seeking to spread the culture of competition, and focusing on the enhancement of banking, insurance and finance in terms of transparency and responsiveness towards its stakeholders.

Due to the international profile of FeBAF, its member associations have decided to concentrate their liaison offices with the European Community in its Brussels headquarters. Thanks to such common presence, the Italian financial industry strengthens its dialogue with other organizations in Europe.
